Project Name : Smart Lender Applicant Credibility Prediction for Loan Approval

Reading The Dataset

- Our dataset format might be in .csv, excel files, .txt, .json, etc. We can read the dataset with the help of pandas.
- In pandas, we have a function called `read_csv()` to read the dataset. As a parameter, we have to give the directory of the CSV file.

```
[3] d=pd.read_csv('/content/gdrive/MyDrive/Colab Notebooks/loan_prediction.csv')
```

```
[4] d
